Case No. 130

**SOUTHERN CALIFORNIA  
EDISON COMPANY'S  
RESPONSE TO MOTION FOR  
EARLY DETERMINATION  
AND MOTION TO AMEND  
APPLICATION**

Southern California Edison Company ("SCE") respectfully moves to amend its Certificate of Environmental Compatibility Application (the "Application") to eliminate the Harquahala West subalternate route. As set forth in its Application, SCE's preference is the proposed route parallel to the existing DPV1 line, not the Harquahala West subalternate route. In addition, the draft EIR/EIS currently being circulated for comment

1 favors the proposed route, not the Harquahala West subalternate route. If the Siting  
2 Committee grants Applicant's motion to amend its Application to eliminate the  
3 Harquahala West subalternate route, it will lead to judicial economy and efficiency  
4 because a number of intervenors are only participating to oppose the Harquahala West  
5 subalternate route, but support the proposed route. Granting this motion to amend also  
6 will moot the pending Motion for Early Determination filed by three of those intervenors.
